ASPIRING MERN STACK DEVELOPER

As an aspiring MERN stack developer, I'm excited to leverage the power of MongoDB, Express.js, React.js, and Node.js to build robust and scalable web applications. I'm committed to learning and growing in this dynamic field.

SKILLS

Javascript(ES6+)	Quick learner	Microsoldering
React.js	Problem solving	MS Office
HTML and CSS	Attention to Detail	Client Management
Git/Github	Fault Finding	

PROJECTS

Plantation Management System

- Developed a web-based management system tailored for cardamom plantations to manage workforce, harvest tracking, financial monitoring, and daily task assignment.
- Implemented an innovative QR code-based attendance system for real-time, error-free worker attendance. Introduced gamification with points and leaderboards to boost worker productivity and engagement.
- Integrated features like historical harvest analysis, financial reporting, and an intuitive dashboard with data visualization and export options.
- Focused on improving operational efficiency and data-driven decision-making for plantation owners.

EXPERIENCE

Internship in MERN Stack Development from Luminar Technolab Kakkanad, Ernakulam

Nov 2024 - present

Changed my carrier from Electronics servicing to IT field thinking of the growth potential, learned HTML and CSS and now pursuing an internship in Luminar Technolab based on MERN stack development
